Social Responsibility

WATER

We drill fresh water wells serving remote families in Ramanagara, providing accessible and safe drinking water to rural communities.

HEALTHCARE

Through regular health camps in Sakleshpur and Chikmagalur, we bring health check-ups and essential medications to remote villages.

EDUCATION

We help farming families navigate education with scholastic programs, providing essentials like school fees, computers, and desks.

Environmental Responsibility

BIODIVERSITY

Engaging intercropping, we secure natural shade and fertile soil, creating a symbiotic habitat for wildlife and endorse optimal growth environments with mindful selection of botanical farming locations.

SOIL INTEGRITY

Through farmer training, we safeguard soil via practices like crop rotation and adherence to Granular Activated Carbon Filtration, curbing soil pollution and preserving its vitality for continual harvests.

OPTIMIZED WATER UTILIZATION

We educate farmers to use catchment basins to collect rainwater for irrigation as well as using solar powered drip irrigation to limit water evaporation.
