SUSTAINABILITY & CSR

OUR SUSTAINABILITY INITIATIVES

Vidya Herbs supports sustainable practices to ensure that the farmers we partner with can provide quality botanicals for generations to come. Some of our initiatives towards sustainability include:

BIODIVERSITY & ADAPTED LOCATION

Partner with Select farmers that grow botanicals in the region (climate, soil etc.) they best thrive in to reduce the need for pesticides, herbicides and other interventions.

SOIL INTEGRITY

Train Farmers on various techniques to protect the soil such as use of Crop Rotation, GACP (Good Agricultural and Collection Practice) to limit soil pollution by minimizing the use of chemicals.

ZERO CARBON FOOTPRINT

We aim to reduce the carbon emission by reducing use of Wood & rely more on Biofuels.

OPTIMIZED WATER USE

Educate farmers on the use of catchment basins to collect rainwater for irrigation as well as using drip irrigation to limit later evaporation.

Our company also promotes the use of solar panels to power these drip irrigation systems.

REGENERATIVE & BIODYNAMIC CERTIFICATION

Our commitment to nature, as well as our customers, drives our passion for seeking out the most sustainable farming practices.

OUR CSR INITIATIVES

Vidya Herbs reinvests a portion of its profits back into the communities that provide the botanical materials our customers have come to rely on. These efforts are focused around 3 core initiatives addressing the needs of rural, remote villages in India.

HEALTHCARE

Conduct Health camps to provide remote villages across to free check-ups and medications during 3-day health camps every 3 months in Sakleshpur and Chikmagalur which has helped over 700 people.

Free Healthcare Center
set up in Chikmagalur

CLEAN WATER

Drilling of new wells to improve access to safe drinking water which has already benefited over 250 families in Ramanagara.

EDUCATION

Aid financial support to cover school fees and education essentials such as computers, desks for our farmer's children – benefitting more than 100 families.
